

What is Azure Auto **MANAGEMENT?**

AZURE AUTO MANAGEMENT

Automanage offers a unified solution to simplify IT management in the cloud. With point-and-click simplicity, automate operations and apply consistent best practices across the entire lifecycle of Windows Server and Linux virtual machines (VMs).

FEATURES

Automatically apply patches and security best practices

Proactively detect drift and automatically remediate

Improve workload uptime with optimised operations.

Reduce costs by automating Windows Server and Linux management

AUTOMATED VM CONFIGURATION MANAGEMENT

Eliminate The Need For Discovery, Enrolment And Configuration Of Azure Services That Support Vm Management Best Practices In The Cloud.

CONSISTENT SECURITY BEST PRACTICES AT SCALE

Drive Efficiency By Automating Frequent, Time-consuming And Error-prone Management Tasks Such As Onboarding And Configuration Of Azure Monitor And Azure Backup.

INNOVATIVE CAPABILITIES FOR WINDOWS SERVER ON AZURE

Easily migrate your workloads to Azure by extending on-premises IP subnets and preserving the original private IP addresses.

The screenshot shows the Windows Admin Center interface for managing file shares. The left sidebar lists various tools like Overview, Azure hybrid services, and Firewall. The main pane is titled "File shares (SMB)" under "Settings". It shows a table of certificates:

Certificate name	Status	Date issued	Expiration date	Thumbprint	Friendly name	Issuer	Signature algorithm
CN=ws2022-quic	Healthy	4/15/2021	4/15/2022	E0DA2C81D8CC781B...		CN=corp-ned-ca-de...	sha256RSA
CN=weird cert	Healthy	2/19/2021	2/19/2022	6C7146AC3236BC720...	weird Cert	CN=weird cert	sha256RSA
CN=somecert	Healthy	2/19/2021	2/19/2022	5E69EE4948DF87FD3...	Some Cert	CN=somecert	sha256RSA

Below the table, there's a section for "Addresses that SMB over QUIC clients can connect to" with checkboxes for "Select All", "ws2022-quic.corp.contoso.com", "ws2022-quic", and "fsedge1.contoso.com". A "Save" button is at the bottom right, and an "Activate Windows" message is at the bottom right corner.
